Stiefel Acute Lotion

Immediate help with skin problems

Skin care balm with stinging nettle and St. John's wort

Quality care for horses

Stiefel Acute Lotion is a skin care balm for treatment of skin infections (especially in the fetlock area), mechanical damage, sunburn and irritation of the skin related to itching. The lotion is quickly absorbed by the skin without residues and makes it soft as well as pliable without making it greasy. The protective film can protect the affected areas from insects. Stiefel Acute Lotion is also suitable for allergy sufferers.

Composition

Clove extract; Stinging nettle extract; Coconut oil; St. John's wort extract; Citric Acid; Ammonia base

Contents according to INCI

Aqua; Caprylic/Capric Triglyceride; Quaternary Ammonium Chloride; Cetareth Alcohol; Propylene Glycol; Mineral Oil; Apricot Kernel Oil; Hypericum Extract; Nettle Extract; Eugenia caryophyllus Extract; Citric Acid

Application

Apply Stiefel Acute Lotion several times a day to the affected areas and gently massage it in. Can be repeated without restrictions as required. Close firmly after use.

Storage note:

Only for external use. Store care products in a cool and dry place protected from direct sunlight. Store out of reach of children.

Packaging:
