Stiefel Calcium

For strong bones

With calcium and vitamin D3

Supplementary feed for horses

Stiefel Calcium can compensate feed-related calcium deficiencies and contribute to the regulation of the calcium-phosphorus ratio. Stiefel Calcium is a feed supplement for good development of foals and young horses and to cover the calcium requirements of lactating mares. Feed-related calcium deficiencies in elderly horses can be balanced.

Composition

Dextrose 47.00 %; Calcium carbonate 39.00 %; Citric acid 12.00 %

Additives per KG

Nutritional additives:

Vitamin D3 (3a671) 20,000 mg IU; Vitamin C (3a300) 1,000 mg; Vitamin K3 (3a710) 30 mg; Choline chloride (3a890) 5,000 mg

Analytical components

Crude ash 39.50 %; Crude protein 3.30 %; Crude fat < 1.00 %; Crude fibre 0.40 %; Calcium 15.60%

Feeding recommendation

Large horses (600 kg body weight) 50 g / day

Small horses 25 g / day

(1 heaped measuring spoon = approx. 25 g)

The dose for lactating mares can be increased to 100 g / day.

This feed contains more feed additives than complete feeds and is therefore restricted to a maximum of 200 g / day.

Storage note

Store the feed in a cool and dry place protected from direct sunlight. Use soon after opening. Store out of reach of children.

ADMR: ADMR compliant according to FN (version from: 22.06.21)

Presentation: Powder

Packaging

Art. ST000601 1 kg tin
