### Stiefel FlyStop DEET

Highly effective insect protection  
For horse and rider

#### Quality insect repellent for horses

Stiefel FlyStop is the new active insect repellent in compliance with the Biocidal Products Regulation. FlyStop DEET offers long-lasting protection against horseflies, black flies and houseflies. Its WHO-recommended active ingredient DEET® provides many hours of protection. For best results spray Stiefel FlyStop DEET on all areas of the horse. Suitable for horse and rider.

#### Active substances:

N,N-Diethyl-meta-toluamide (DEET) 100 g/kg; Eucalyptus citriodora oil, hydrated, cyclised 3 g/kg

#### Application:

Spray on coat sparingly from a distance of about 25 cm as required. For sensitive horses, use a cloth to apply. Riders can apply the insect repellent sparingly onto the skin. Avoid sensitive areas (eyes, ears, nostrils and mucous membranes). The repellent's active protection begins to work immediately. Insect repellent spray with DEET.

#### Please note:

Use caution when using biocides. Always read label and product information before using. Keep container firmly closed. Keep out of reach of small children. Do not use under the saddle or under clothing. Do not spray on open wounds. Use only in well-ventilated areas; avoid inhaling fumes. If swallowed, seek medical attention; bring label and packaging. For external use only. Contains eucalyptus oil, citronella oil (Cymbopogon winterianus) ext.; citronellol. May cause allergic reactions.

#### Hazard note:

Can cause severe eye irritation. May cause skin irritations.

#### Safety information:

Keep out of reach of children. Wear gloves/protective apparel/eye protection when applying. IN CASE OF CONTACT WITH EYES: Rinse carefully with water for several minutes. If wearing contact lenses, remove them if possible. Continue to rinse eyes. Seek medical advice/attention if eye irritation persists. Remove contaminated clothing and launder before wearing again.

#### Packaging:
