Stiefel FlyStop IR

Highly effective insect protection
For horse and rider

Quality insect repellent for horses

Stiefel FlyStop IR is the new active insect repellent in compliance with the Biocidal Products Regulation. Stiefel FlyStop IR has a long-lasting effect against annoying insects such as horseflies, ticks, black flies and flies. The active ingredient offers protection for many hours. For optimal effectiveness spray FlyStop all over the horse. Suitable for horse and rider.

Active substance:

Ethyl N-acetyl-N-butyl-beta-alaninate (EBAAP) 20 g/100 g; Eucalyptus citriodora oil, hydrated, cyclized 3 g/kg

Application:

Spray sparingly on the coat from a 25 cm distance. For sensitive horses: apply with a cloth. For riders: apply insect repellent sparingly to the skin. Avoid contact with sensitive areas (eyes, ears, nostrils and mucous membranes). Fast-acting. Insect repellent spray with EBAAP.

Please note:

Use biocides with caution. Always read label and product information before using. Keep container firmly closed. Keep out of reach of small children. Do not use under the saddle or under clothing. Do not spray on open wounds. Use only in well ventilated areas; avoid inhaling fumes. If swallowed, seek medical attention; bring label and packaging. For external use only.

Hazard note:

Flammable liquid and vapour. Can cause severe eye irritation.

Safety information:

Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames or other ignition sources. Do not smoke while applying. Avoid electrostatic discharge. Dispose of contents/container with hazardous waste. IN CASE OF CONTACT WITH EYES: Rinse carefully with water for several minutes. If wearing contact lenses, remove them if possible and continue to rinse eyes. Store in a cool, well ventilated location. Dispose of the content/container at a collection point for hazardous and special waste.

Packaging:

Art. ST007831 650 ml
