Stiefel RP1 Insect-Stop Gel & Roll On

Highly effective insect protection
For horse and rider

Quality insect repellent for horses

Stiefel RP1 Insect-Stop Gel is a proven, highly effective insect Repellent with active horsefly and tick protection according to the Biocidal Products Regulation. The active ingredient Saltidin® (Icaridin) offers protection for many hours. In gel form it is particularly suitable for the sensitive head and stomach area.

Active substances:

Sec-butyl 2-(2-hydroxyethyl)piperidine-1-carboxylate (Icaridin (Saltidin®)) 80 g / kg; Eucalyptus citriodora oil, hydrated, cyclised 3 g / kg

Application:

Sparingly apply Stiefel RP1 Insect-Stop Gel to the selected body areas as required. Do not apply to sensitive parts of the body (eyes, ears, nostrils and mucosa). Active protection starts immediately. Gel with icaridin (Saltidin) for protection against insects.

Safety informations:

Caution when using biocides. Always read the label and product information before use. Keep the container tightly closed. Store out of reach of children. Do not apply under the saddle or clothing. Do not spray on open wounds. Consult a doctor after swallowing, present the package and label. Only for external use.

Disposal:

Only forward the packaging for recycling once all residues have been removed. Do not dispose of product residues in domestic waste, through the toilet or down the drain.

Packaging:

Art. ST007903 80 ml Roll On

Art. ST007901 500 ml Gel
