### Stiefel RP1 Insect-Stop Sensitiv

For particularly sensitive skin types  
Highly effective insect protection

#### Quality insect repellent for horses

Stiefel RP1 Insect-Stop Sensitiv is a highly effective insect repellent with active horsefly and tick protection according to the Biocidal Products Regulation. It is particularly suitable for sensitive skin types and eczema horses because it works without alcohol. Optimal effectiveness in combination with the Stiefel RP1 Insect Stop Gel, which contains no alcohol. The active ingredient Saltidin® (Icaridin) offers protection for many hours. Suitable for horse and rider.

#### Active substances:

Sec-butyl 2-(2-hydroxyethyl) piperidine-1-carboxylate (Icaridin (Saltidin®)) 80 g / kg; Eucalyptus citriodora oil, hydrated, cyclised 3 g / kg

#### Application:

Spray on coat sparingly from a distance of about 25 cm as required. For sensitive horses, apply with a cloth or use in gel format. Riders should apply the insect repellent sparingly onto the skin. Avoid sensitive areas (eyes, ears, nostrils and mucous). The repellent's active protection begins to work immediately. Insect repellent pump spray with Icaridin (Saltidin).

#### Safety informations:

Caution when using biocides. Always read the label and product information before use. Keep the container tightly closed. Store out of reach of children. Do not apply under the saddle or clothing. Do not spray on open wounds. Use only in well-ventilated areas; avoid inhaling fumes. Consult a doctor after swallowing, present the package and label. Only for external use.

#### Packaging:

Art. ST007821	500 ml
Art. ST007823	2,5 l
