

## Data sheet

Version: 09.02.2022

### Stiefel Suspension

For strained horse legs

Wrapping paste with kaolin, menthol and winter green oil

### Quality care for horses

Stiefel Suspension is a wrapping paste with kaolin, menthol and winter green oil. Kaolin is a combination of aluminum silicate and water and is deemed to be one of the white healing clays. Stiefel Suspension is excellent for cooling strained or painful joints and tendons. It can also be used as a warm application for muscle tension.

### Contents according to INCI:

Kaolin; Aqua; Propylene Glycol; Zink Oxide; Hydroxyethylcellulose; Gaultheria procumbens; Menthol; Phenoxyethanol; Ethylhexylglycerin

### Application:

Cold application: Apply thickly once a day and allow to penetrate. Wash off paste with warm water. Repeat process as required.

Warm application: Heat tin for approximately 15 minutes in a double boiler.

Slightly open the lid for this purpose. Lightly knead the paste and apply. Cover with plastic film and bandage if necessary.

### Hazard note:

Poisonous for water organisms, has long-term effects.

### Safety information:

Avoid release into the environment. Dispose of the content/container as special waste.

### Storage note:

Only for external use. Store care products in a cool and dry place protected from direct sunlight. Store out of reach of children.

### Packaging:

Art. ST009401                      850 g

Art. ST009400                      2 kg
